Within the Strategic objective of the EU with the 2020 horizon lies the aim that entrepreneurial spirit as a key competence that must be integrated into the curriculum and must be attained at the end of compulsory education and maintained and strengthened throughout life. With this premise, this project aims to enhance pupils' entrepreneurial competences at a European level.

The project combines new methodologies and innovative ways to introduce the entrepreneurial spirit into school curricula with the aim to improve student's key competences and developing a bigger awareness of Europe, its job market and a European sense of identity.

Our main objectives are:

- To promote the Social and educational value of European Cultural Heritage and its contribution to job creation, economic growth and social cohesion by learning more about the different countries cultural heritage and its direct relation to entrepreneurial opportunities. Through an international collaboration, we will give our students the chance to experience it directly and exchanging knowledge, methodology and new solutions to our school communities.
- To support individuals in acquiring and developing basic skills and key competences through the innovative methodologies proposed.
